

Fall Color Sale 10/11/12

There is NO BETTER time to plant. We LOVE fall gardening. All sales end 10/22.

60% Off All Hardy Herbaceous Perennials: wildflowers, sun and shade perennials, ferns, cut-flowers, hardy groundcovers, and even vines. We ALWAYS have a huge selection and we brought in more last week. In anticipation of our cutting back and tucking the perennials away for winter, we thought "let's make some clients very happy and reduce the numbers we'll need to put to bed". Includes asparagus and perennial herbs.

40% Off Single-trunk, Tree-form

Maples & Birch: Eric got a little excited about fall color last month and ordered (perhaps) a little too many tree form maples and water-birch. (He's still a little excited having just returned from New England). There are some wonderful new selections of *Acer grandidentatum* as well as

a new hardier sugar maple plus tree-form 'Flame' maples, bomb-proof Tartarian maples and dense hedge maples. Don't miss out on the rest of the growing season to get plants well established for far more tremendous growth next spring.

30% Off Fruiting Trees & All Shrubs

(<12' mature ht.): Fruiting Apples, Pear, Cherry, Hardy Apricot, Hardy Plum, Hardy Grapes, Blueberries, Raspberries, Goji Berries (REALLY hardy & drought adapted), Red-Lake Currants and Golden Currants. Last chance to get a jump on next summer's production garden.

20% Off Aspen, Chokecherry, Flowering Crabapples,

shrub-form Maples, Mt.Ash & Birch (>12' mature ht.): One more chance

for you to take advantage of fall root growth for larger trees next summer. Great trees for spring color, summer screening and fall foliage.

1 Free when you buy 4 (of the same product) **Compost &**

Mulch: Sale on ALL composts, mulches and potting soils including Master Nursery Gardener's Gold, Dr.Earth Pot-of-Gold, Black Gold, Fox Farm Ocean Forest, Sunshine and ProMix bales. All sales end 10/22.

FREE Annual Color and Half-hardy ("tender") Perennials

(or you can make a donation to the KID Zone Museum): We call some tender perennials "annuals" here to protect clients from accidentally thinking they'll survive our winters (they actually WILL thrive in places like Auburn, Sacramento or the Bay Area).

BIOSOL - This stuff kicks. Anytime. THE best "winterizing" fertilizer we've ever used. Biosol in fall, Topper and Dr. Earth in spring. We have Tons in stock. ...and more on the way. (see coupon in the e-mail newsletter). If you missed the newsletters, register [here](#).

Mountain Bulbs - Bearded Iris (1/2 price),

Hardy hard-Neck Garlic 99¢. Plant Autumn Crocus NOW as well. The dozens of varieties of **hardy Narcissus and Daffodil along with Scilla, Allium**

and others, for animal resistance and longevity, are here and ready to be planted. Don't panic. You can plant any time from now-on but it can be more challenging once the soil begins to freeze in November. ([learn more](#))

We have wild, [native](#) Allium, Camas, Lily, Iris, Sysrinch., Dicentra, Aralia and more in the nursery PLUS wildflower seeds individually or in our custom blends.

30% Off Large Pottery* and Redwood - (*pottery larger

than 14" dia) we have a huge selection of redwood planters that do hold-up well through many winters. Plant up some miniature narcissus for an early spring blast of color or hold them until next spring. We have so little room in the shop that we'd like to let you have the larger pots at a great savings if you need one.

Extend your Production Season! -

1.5oz wt. N-Sulate spun-bonded polyester, floating row-cover, frost protection fabric is light and breathable, lets in 50% of the sunlight and protects your ripening tomatoes and peppers from 6-8° below freezing. We use it in spring to harden-off new transplants, to protect from summer frosts, we cover plants with it when hail is threatening and we use it to keep the garden producing for an extra 4-6 weeks in fall. **10x12' sheet \$14.99**
