LAWN FERTILIZER

Natural LAWN Care

SPREADER SETTINGS

Broadcast Spreaders	9 lbs. per 1000 sq. ft.	Distance Between Passes (Ft.)
Model	Setting	
ORTHO ROTARY	3.0	8.0
SCOTTS SPEEDYGREEN 1000	5.0	4.0
SCOTTS SPEEDYGREEN 2000, 3000	8.0	3.0
Drop Spreaders	9 lbs. per 1000 sq. ft.	
Model	Setting	
ORTHO DROP	14.0	
SCOTTS ACCUGREEN 1000, 2000	10.5	
SCOTTS ACCUGREEN 3000	8.50	
SCOTTS DROP (#PF1, PF2, PF3, PF4)	10.0	

Setting may vary due to age and condition of spreader and types of terrain. We recommend that you calibrate your spreader to apply 0.9lbs (2 cups) per 100 sq. ft.

Unlike chemical fertilizers, Dr. Earth is All Natural and will not burn or cause streaks if too much is applied.

- FEED EARLY SPRING
LATE SPRING
SUMMER ~ FALL
- COVERS 2000 SQ. FT.
- FOR NEW OR EXISTING
LAWNS (SOD OR SEED)
